Continuation of Substance of Interview including description of the general nature of what was discussed:

Discussion included suggested amendments to the claim language to put the claim in better condition for allowance; for example, it was suggested that requiring the step of determining a number of monetary contributions associated with both the positive and negative rating categories would add concreteness to the commentary building and help to overcome the rejections under 35 USC §112 and 35 USC §101.

Examiner will consider any changes made to the claim language.
